Rooted in Tradition,
Refined for Today

ABOUT US

At Indo Essentials Exim, we specialize in delivering premium-quality Makhana and rice varieties sourced directly from trusted farms. With a commitment to purity, reliability, and international standards, we ensure every product reflects our dedication to excellence. Our focus on customer trust and sustainable practices makes us a preferred partner for quality-conscious buyers across the globe

The background of the entire page is a blurred image of a busy market or festival with people in traditional Indian attire. The bottom half of the page features a dark wooden surface with several pieces of white, puffed makhana (fox nuts) and some rice grains scattered on it. A golden circular logo with the text 'INDO ESSENTIALS EXIM' is positioned in the bottom right corner.

INDO
ESSENTIALS
EXIM

The background of the advertisement is a collage of three images. On the left, there is a large pile of white, long-grained rice. On the right, there is a bowl filled with white, round makhana (fox nuts) and some almonds. At the bottom right, there is a pile of various pulses, including cashews and almonds, on a textured surface.

Indo Essentials Exim is your trusted global partner, specializing in the export of premium, essential Indian staples, including diverse Rice varieties, Makhana (Fox Nuts), and quality pulses.

We are committed to sustainable practices and long-term partnerships with our suppliers and clients worldwide. We work closely with our farming communities, ensuring purity and excellence from harvest to packaging. Every product is sourced with integrity and guaranteed to be pesticide-free.

#OUR PRODUCT #YOUR BRAND

We value transparency and unparalleled quality above all else. Our dedication extends to offering flexible private labeling solutions, helping your brand achieve effortless growth with products unmatched in quality.

Your success is our ultimate goal!

Sourced from the heart of Bihar, Makhana is renowned for its exceptional quality, crunchy texture, and rich nutritional value. Handpicked from traditional ponds and processed with care, these fox nuts are a natural source of protein, calcium, and antioxidants—making them the perfect healthy snack for all ages. Whether roasted for a light bite, cooked in delicious curries, or used in festive sweets, Darbhanga Makhana adds purity, flavor, and wellness to every dish. Trusted for generations, it is truly India's superfood with global appeal.

- **100% Natural & Handpicked from Darbhanga, Bihar**
- **Rich in Protein, Calcium & Antioxidants**
- **Low in Calories, Gluten-Free & Vegan**
- **Ideal for snacking, curries, kheer, and festive recipes**
- **Boosts energy, digestion, and heart health**
- **Hygienically processed & packed for freshness**

SPECIFICATION

Commodity Name	Foxnut / Makhana
4+ Suta	14 to 16 mm
5+ Suta	16 to 20 mm
6+ Suta/ Handpicked	18 to 22 mm
Cultivation	Natural
Minimum Shelf life	9 Months
Packaging	Good Purity, Natural Test, No added color , Non - Harmful

The Next Generation of Healthy Flour: Foxnut Atta

Elevate your baking and cooking with our premium Foxnut Atta (Makhana Flour). Ground from the nutrient-dense seeds of the lotus plant, this flour is the perfect alternative to traditional grain flours, allowing your customers to enjoy their favorite foods without compromise.

Key Benefits of Makhana Flour:

- **100% Gluten-Free:** Ideal for customers with gluten sensitivities or those following a clean-eating regimen.
- **High in Fiber:** Promotes better digestion and provides sustained energy.
- **Mineral-Rich:** An excellent source of essential Calcium, Magnesium, and Iron, supporting bone health and overall wellness.
- **Low Glycemic Index (Low GI):** A smart choice for managing blood sugar levels compared to traditional refined flours.

QUALITY CONTROL

At Indo Essentials Exim, maintaining stringent quality parameter controls is crucial to ensure that the exported rice meets international standards and customer expectations. Some essential quality parameters that are controlled during rice export include:

1. GRAIN SIZE AND SHAPE

Rice grains should have a uniform size and shape, which is essential for consistent cooking and appearance in the final product.

2. BROKEN GRAINS

The percentage of broken grains is an important quality parameter. Customers often specify the maximum allowed percentage of broken grains in the exported rice.

3. MOISTURE CONTENT

Controlling moisture content is critical to prevent mold growth and maintain the rice's quality during transportation and storage.

4. FOREIGN MATTER AND IMPURITIES

Exported rice should be free from any foreign matter, such as stones, dust, husks, or insects.

5. COLOR AND APPEARANCE

The color and appearance of rice are significant factors in customer preferences. Exported rice should have consistent, appealing visual appearance.

6. COOKING AND AROMA

The aroma and taste of rice greatly influence consumer satisfaction. Exported rice should have the characteristic aroma and taste associated with its variety.

7. PURITY AND VARIETY

Ensuring the purity of the rice variety is essential to meet specific customer demands and avoid mixing different rice types.

8. PACKAGING AND LABELING

Proper packaging is crucial for protecting the rice during transit. Clear and accurate labeling helps customers identify the product's origin and specifications.

9. PESTICIDE RESIDUES

Exported rice should comply with international regulations regarding the permissible levels of chemical residues, including pesticides and heavy metals.

10. SHELF LIFE AND STORAGE STABILITY

The rice should have a reasonable shelf life, and its quality should remain stable during transportation and storage.

INDO ESSENTIALS EXIM

Services We Provide

Indo Essentials Exim offers a comprehensive range of services to meet the diverse logistical and quality needs of our clients. Let's break down each service we provide:

1. FACTORY STUFFING: The company offers a factory stuffing facility, ensuring the goods are handled and loaded into containers directly at our factory premises. This process guarantees that the goods remain untouched throughout the stuffing process. Once the goods are loaded into the container, it is sealed and remains locked until it reaches the buyer's designated facility. This method is critical for maintaining the quality and integrity of the products during transportation.

2. SPECIALIZED PALLET PACKING: Indo Essentials Exim is proficient in providing various types of packing options that are acceptable in the global essentials and rice business. Our specialization includes pallet packing, where bags are arranged and stacked on pallets, and then shrink-wrapped, typically creating a load of approximately 1 metric ton. This ensures the stability, compactness, and security of the cargo, making it easier to handle and transport.

3. MARKET INSIGHTS & CONSULTATION: Indo Essentials Exim extends assistance to both our established buyers and new merchant exporters interested in entering the Indian essentials export market. We provide support and guidance throughout the entire export process, from sourcing the appropriate Rice varieties and Makhana to ensuring the shipment successfully reaches its destination. This includes information on quality control measures, specialized packaging options, shipping, and all relevant export regulations.

4. Logistics and Shipping: We efficiently and securely manage the transportation of all shipments (rice, and makhana) from our factory facilities to the buyer's godowns or desired ports worldwide. This dedicated management ensures product integrity is maintained throughout the entire logistics chain.
